

Creating a Data Sharing Culture in Cancer Research

Panel Discussion: 22 June 2010

U.S. DEPARTMENT
OF HEALTH AND
HUMAN SERVICES

National Institutes
of Health

Session Background

- A broad range of factors encourage and hinder collaborative data sharing.
- While these factors often appear well understood, complexities remain.
- Today, we focus on what is being done to facilitate collaborative data sharing, and what is needed - from whom - to move forward.

Session Design

- Introduction
- Panel Responses: Question 1
- Panel and Audience Reactions
- Panel Responses: Question 2
- Open Discussion: Panel and Audience

A Panel of Multiple Perspectives

- Jennifer Tucker, PhD (Facilitator)
- Deborah Collyar
- Abi Ajose-Adeogun
- David Carr
- Gregory Curt, MD
- Elaine Brock
- Karen Maschke, PhD

Touching Upon a Range of Factors

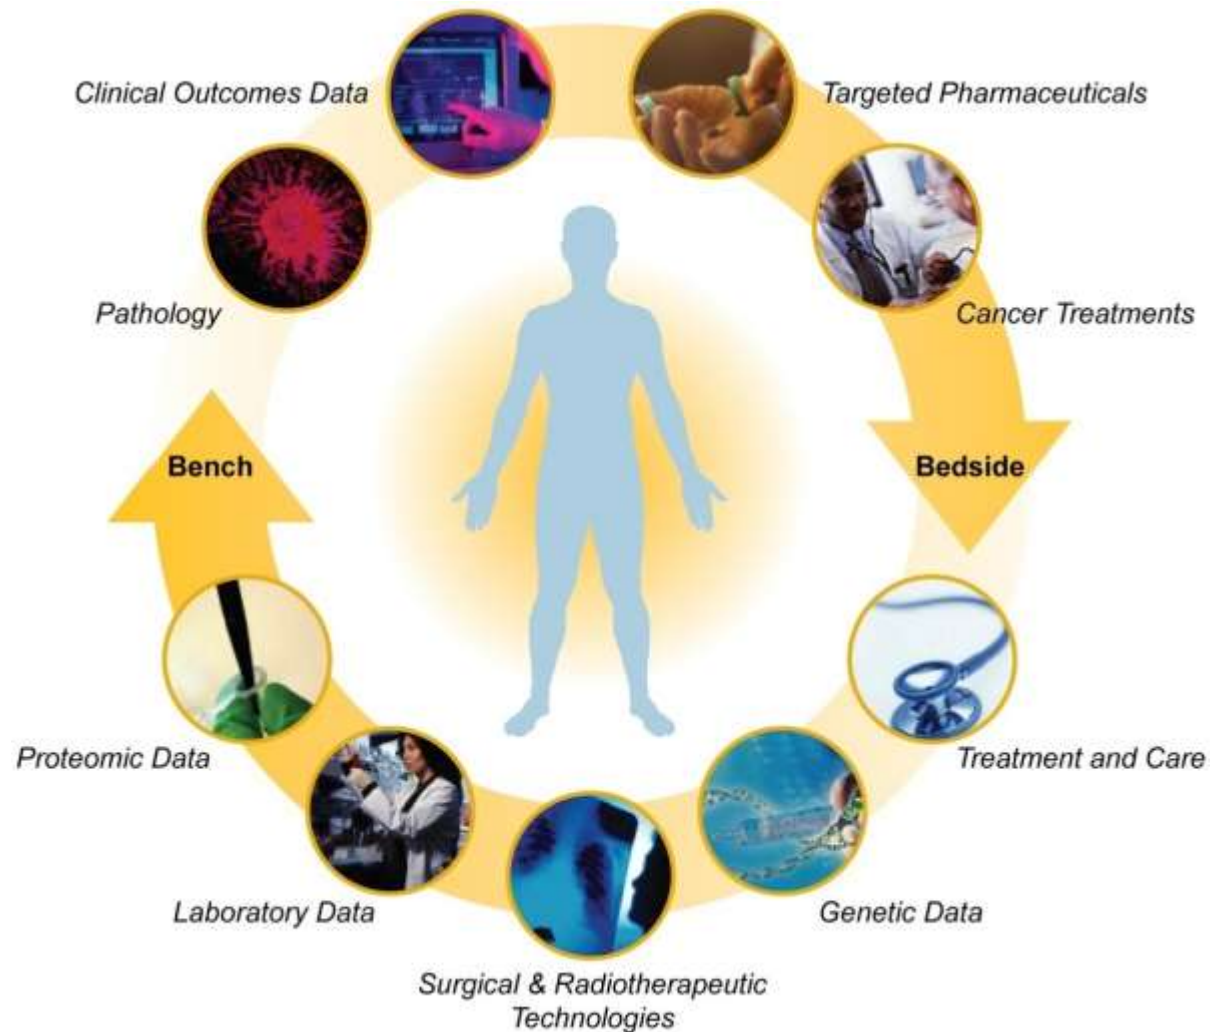

- Social/Cultural
- Policy
- Economic
- Scientific
- Labor
- Academic
- Legal-Regulatory
- Personal

- Incentives
- Rewards
- Motivation

Two Additional Perspectives:

- Publisher Perspective
- Academic Leadership

Facilitating Sharing: Across A Life Cycle

Question 1

- From the perspective you represent, how are you helping us enable and remove the barriers to collaborative data sharing?

Question 2

- From the perspective you represent, what do you need, from whom, to more quickly move to a culture of collaborative data sharing?
